

Delta Plus Mattress

A foam support surface aids in the prevention and management of pressure injury. Pressure, shear, friction and moisture are all contributing factors effecting skin integrity.

COVER SPECIFICATIONS

TOP COVER

- Vapour Permeable
- Multi directional elasticity
- Waterproof
- Antibacterial
- BS 6807 ignition source 5
- BS 7175 ignition source 5
- Fully welded with zip (4 sides) and waterfall flaps
- 2 year guarantee on fabric if maintained correctly
- Care instructions on mattress cover

BASE COVER

- Grey vinyl non slip for durability and longevity
- Carry handles attached to base cover

FOAM SPECIFICATION

- Delta Plus mattress has been designed using hospital grade foam in all three layers. Density, hardness and depth played a major role in this decision.
- Top surface has been castellated increasing surface contact area and potentially reducing risk factors.

PROPERTIES

- This surface has side rails with a hinging system for stability and flexibility.
- All foams meet Australian Standards and are treated with an antimicrobial agent called Ultra-Fresh.
- 5 year guarantee on foam

KEY SPECIFICATION

Product code	84605Z
Length	1990mm
Width	900mm
Depth	180mm (optional sizing available)
Weight capacity:	150kg–250kg
